

Marlborough Lines Limited
Electricity Lines Charges Effective 1 April 2007
All Prices Exclusive of GST

'Disclosed Pursuant to Electricity (Information Disclosure) Regulations 1999 and Electricity (Information Disclosure) Amendment Regulations 2000, Part 6

	Code	Price Unit	Pre-Discount Charge from 1 April 2007	Distribution Component from 1 April 2007	Transmission Component from 1 April 2007	Discount from 1 April 2007 Exc GST	Estimated Number of Connections 31 March 2007	Total Charge to 31 March 2007	Distribution Component to 31 March 2007	Transmission Component to 31 March 2007	Notes
Marlborough Lines is pleased to announce that it will continue its policy of providing discounts to qualifying consumers in 2007/08. The terms on which the discount is available are set out below.											
The total amount of funds which will be returned to qualifying consumers by way of discount will be a minimum of \$5.02million inclusive of GST. The amount of discount which will be paid to each qualifying consumer depends on the line charges paid for an installation in the period from 1 February 2007 to 31 January 2008. The minimum rates at which the discount will be applied for the various line charges are set out in the price schedule below.											
Discounts will be calculated by Marlborough Lines, based on the information provided to us by the electricity retailers, and paid to the retailers towards the end of March 2008. Marlborough Lines will arrange for the electricity retailers to pass on the discount directly to each qualifying consumer. A qualifying consumer is any person who is connected to the Marlborough Lines network on a date determined by the Company in March 2008, for an installation which has been connected at any time between 1 February 2007 to 31 January 2008.											
The Discount payable to a Domestic consumer will be based on a maximum of 14,000kWh of Uncontrolled energy											
Residential Connections											
Standard Option Non-Remote Areas											
Uncontrolled Energy	01	cents per kWh	5.338	5.228	0.110	1.223		4.855	4.745	0.110	Only available with fixed charge code DS, DT, DSNL or DTNL

	400W High Pressure Mercury Vapour	SM	per fitting per annum	\$280.40	\$280.40	-	-		\$270.31			Includes Maintenance Charge
Power Factor Charges												
	Power Factor Charges - Time of Use Metered ICPs Note 4	PFT	per kVAr per Month	\$7.150	\$7.150				\$6.500	\$6.500		Based on actual power factor derived from ToU data
	Power Factor Charges - Non-Time of Use Metered ICPs Note 4	PFI	per kVAr per Day	\$0.235	\$0.235				\$0.214	\$0.214		Based on Assessed power factor for ICP
Note 1	Marlborough Lines has received an exemption from the provisions of the Electricity (Low Fixed Charge Tariff Option for Domestic Consumers) Regulations 2004, in respect of supply to consumers located in various rural and remote areas supplied from the Network. A copy of the Exemption Notice and Map showing the areas affected is provided on Marlborough Lines web site, www.marlboroughlines.co.nz , or can be viewed at the Company's Head Office, Alfred Street, Blenheim.											
Note 2	Winter Maximum Demand charges are applied to the highest monthly half-hourly demand established between 7am and 11pm in the months May to September. A minimum chargeable demand of 100kVA applies in all these months.											
Note 3	To qualify for any of the Controlled Load price codes set out above, various minimum loads must be installed and subject to automatic ripple control. These minimum loads are:											
	Price Codes 12, 13, 16, 17, 18, 19, 22 and 28	1.5kW										
	Price Codes 20 and 30	10kW										
	Price Code 96, 97, 97/1 and 97/2	7.5kW										
Note 4	Where the actual or assessed mean power factor at the time of the six highest monthly kVA demands at an installation falls below 0.95, Marlborough Lines reserves the right to apply a power factor charge. The Chargeable kVAr is the total kVAr less the kVAr at 0.95 power factor.											
Note 5	For Group 4 and Local Authority Street Lighting supplies, the Day period is from 7am to 11pm, and the Winter period from 1 May to 30 September inclusive.											
Note 6	Supply to Irrigation & similar summer loads will generally be available for a minimum of 20 hours per day between 1 October and 30 April, with supply availability during May and September being subject to system loading conditions. Winter Energy rates apply for consumption between 1 June and 31 August inclusive.											
Note 7	Irrigation Tariff Installations fitted with Time of Use metering may, for Winter (June to August) consumption, elect to be supplied under either the Standard 24 hour tariff Code 97, or under the Day:Night option, Codes 97/1 and 97/2.											
Note 8	Where options as to Capacity Group or Energy related charges are available, Marlborough Lines reserves the right to require consumers to remain on the chosen option for the full year or season as applicable.											
Note 9	The areas considered by Marlborough Lines to be Remote, and for which a lower level of discount is payable are identified on the map on Marlborough Lines web site, www.marlboroughlines.co.nz
