

Marlborough Lines Limited

Electricity Lines Charges Effective 1 April 2009

All Prices Exclusive of GST

Disclosed Pursuant to Electricity (Information Disclosure) Regulations 1999 and Electricity (Information Disclosure) Amendment Regulations 2000, Part 6

	Code	Price Unit	Pre-Discount Charge from 1 April 2009	Distribution Component from 1 April 2009	Transmission Component from 1 April 2009	Discount from 1 April 2009 Exc GST	Estimated Number of Connections 31 March 2009	Total Charge to 31 March 2009	Distribution Component to 31 March 2009	Transmission Component to 31 March 2009	Notes
Marlborough Lines is pleased to announce that subject to there being no legislative or regulatory changes which would adversely affect the provision and/or receipt of discounts it will continue its policy of providing discounts to qualifying consumers in 2009/10. The terms on which the discount is available are set out below.											
The total amount of funds which will be returned to qualifying consumers by way of discount will be a minimum of \$6.8 million inclusive of GST. The amount of discount which will be paid to each qualifying consumer depends on the line charges paid for an installation in the period from 1 February 2009 to 31 January 2010. The minimum rates at which the discount will be applied for the various line charges are set out in the price schedule below.											
Discounts will be calculated by Marlborough Lines, based on the information provided to it by the electricity retailers, and paid to the retailers towards the end of March 2010. Marlborough Lines will arrange for the electricity retailers to pass on the discount directly to each qualifying consumer. A qualifying consumer is any person who is connected to the Marlborough Lines network on an as yet unspecified date in March 2010, at an installation which had been connected at any time between 1 February 2009 to 31 January 2010.											
The Discount payable to a Domestic consumer will be limited to a maximum of \$350 inclusive of GST.											
Residential Connections											
Standard Option Non-Remote Areas											
Uncontrolled Energy	01	cents per kWh	6.298	5.865	0.433	1.302		6.298	5.988	0.310	Only available with fixed charge code DS or DT
13 hour Controlled Energy - Note 3	12	cents per kWh	3.682	3.249	0.433	0.761		3.682	3.372	0.310	Normally on minimum of 15 hours per 24 hour period
8 hour Controlled Energy - Note 3	18	cents per kWh	1.596	1.163	0.433	0.330		1.596	1.286	0.310	On 11pm to 7am all days

	Port Marlborough Picton & Havelock Street Lighting - multiple lights	SP	per annum	\$28,433.580	\$28,433.580	-			\$7,206.70	\$7,206.70		Based on light quantities at 28 Jan 2009, Including Maintenance
	RNZAF Base Woodbourne Street Lighting - multiple lights	SR	per annum	\$1,653.260	\$1,653.260	-			\$3,415.73	\$3,415.73		Based on light quantities at 28 Jan 2009, Excluding Maintenance
Power Factor Charges												
	Power Factor Charges - Time of Use Metered ICPs Note 4	PFT	per kVAr per Month	\$8.168	\$8.168	\$0.000			\$8.168	\$8.168	\$0.000	Based on actual power factor derived from ToU data
	Power Factor Charges - Non-Time of Use Metered ICPs Note 4	PFI	per kVAr per Day	\$0.269	\$0.269	\$0.000			\$0.269	\$0.269	\$0.000	Based on Assessed power factor for ICP
Note 1	Qualification conditions apply for use of the Domestic Low Fixed Price Option - Fixed Charge Codes DL and DM. Consumers should contact their Electricity Retailer for details.											
Note 2	Winter Maximum Demand charges are applied to the highest monthly half-hourly demand established between 7am and 11pm in the months May to September. A minimum chargeable demand of 100kVA applies in all these months.											
Note 3	To qualify for any of the Controlled Load price codes set out above, various minimum loads must be installed and subject to automatic ripple control. These minimum loads are:											
	Price Codes 12, 13, 16, 17, 18, 19, 22 and 28	1.5kW										
	Price Codes 20 and 30	10kW										
	Price Code 96, 97, 97/1 and 97/2	7.5kW										
Note 4	Where the actual or assessed mean power factor at the time of the six highest monthly demands at an installation falls below 0.95, Marlborough Lines reserves the right to charge the power factor charge. The charge is : Chargeable kVAr * price per kVAr, where the Chargeable kVAr is the total kVAr less the kVAr at 0.95 power factor.											
Note 5	For Group 4 and Local Authority Street Lighting supplies, the Day period is from 7am to 11pm, and the Winter period from 1 May to 30 September inclusive. For irrigation supplies, the Day period is from 7am to 11pm, and the Winter period from 1 June to 31 August inclusive.											
Note 6	Supply to Irrigation & similar summer loads will generally be available for a minimum of 20 hours per day between 1 October and 30 April, with supply availability at other times being subject to system loading conditions.											
Note 7	Irrigation Tariff Installations fitted with Time of Use metering may, for Winter (June to August) consumption, elect to be supplied under either the Standard 24 hour tariff Code 97, or under the Day:Night option, Codes 97/1 and 97/2.											
Note 8	Where options as to Capacity Group or Energy related charges are available, Marlborough Lines reserves the right to require consumers to remain on the chosen option for the full year or season as applicable.											
Note 9	The areas considered by Marlborough Lines to be Remote, and for which no discount is payable are identified on the map on Marlborough Lines web site, www.marlboroughlines.co.nz											
Note 10	All Group 4 charges are applied per ICP on a calendar month basis.											
Note 11	Where an installation supplying seasonal loads or casually occupied premises is reconnected within 12 months from the date of any disconnection, Marlborough Lines reserves the right to charge fixed charges for the period of disconnection.
